

and home...we cover it all!

distinctive possibilities

Whether for flooring, kitchen counters, custom furniture, vanity tops, or wall cladding, Geoquartz meets and exceeds the most innovative and avant-garde architectural and artistic requirements. Geoquartz is an engineered stone product made from 93% natural quartz—the earth's most abundant mineral. Quartz is extremely hard with unmatched strength, radiance, clarity, and depth.

Geoquartz is warranted by our Geoquartz Limited Warranty, copies of which are available from our website. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. Product specifications, sizes, and colors are subject to change without notice. Printed representations of the product may vary from actual samples and production pieces. Geoquartz is composed of natural quartz materials and as such is subject to slight variations in color, shading, and particle structure.
